FREEDMEN'S BUREAU PRESERVATION PROJECT

This National Archives microfilm publication is part of a multiyear project to microfilm the field office records of the Bureau of Refugees, Freedmen, and Abandoned Lands (Freedmen's Bureau). The project was made possible by the United States Congress through The Freedmen's Bureau Records Preservation Act of 2000 (Public Law 106-444). When completed, all of the field records for the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas, Virginia, and for the District of Columbia will be available on microfilm. For microfilm availability and description, view both the microfilm catalog *Black Studies: A Select Catalog of National Archives Microfilm Publications* and the National Archives microfilm locator on our web site at www.archives.gov.

INTRODUCTION

On the 133 rolls of this microfilm publication, M1904, are reproduced the records of the Kentucky headquarters for the Assistant Commissioner and his staff officers and the subordinate field offices of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1865-1872. These records consist of bound volumes and unbound records, containing materials that include letters sent and received, monthly reports, registers of complaints, labor contracts, and other records relating to freedmen's claims and bounty payments. These records are part of the Records of the Bureau of Refugees, Freedmen, and Abandoned Lands, Record Group (RG) 105.

HISTORY AND ORGANIZATION

The Bureau of Refugees, Freedmen, and Abandoned Lands, also known as the Freedmen's Bureau, was established in the War Department by an act of Congress on March 3, 1865 (13 Stat. 507). The life of the Bureau was extended twice by acts of July 16, 1866 (14 Stat. 173), and July 6, 1868 (15 Stat. 83). The Bureau was responsible for the supervision and management of all matters relating to refugees and freedmen, and of lands abandoned or seized during the Civil War. In May 1865, President Andrew Johnson appointed Maj. Gen. Oliver Otis Howard as Commissioner of the Bureau, and Howard served in that position until June 30, 1872, when activities of the Bureau were terminated in accordance with an act of June 10, 1872 (17 Stat. 366). While a major part of the Bureau's early activities involved the supervision of abandoned and confiscated property, its mission was to provide relief and help freedmen become self-sufficient. Bureau officials issued rations and clothing, operated hospitals and refugee camps, and supervised labor contracts. In addition, the Bureau managed apprenticeship disputes and complaints, assisted benevolent societies in the establishment of schools, helped freedmen in legalizing marriages entered into during slavery, and provided transportation to refugees and freedmen who were attempting to reunite with their family or relocate to other parts of the country. The Bureau also helped black soldiers, sailors, and their heirs collect bounty claims, pensions, and back pay.

The act of March 3, 1865, authorized the appointment of Assistant Commissioners to aid the Commissioner in supervising the work of the Bureau in the former Confederate states, the border states, and the District of Columbia. While the work performed by Assistant Commissioners in each state was similar, the organizational structure of staff officers varied from state to state. At various times, the staff could consist of a superintendent of education, an assistant adjutant general, an assistant inspector general, a disbursing officer, a chief medical officer, a chief quartermaster, and a commissary of subsistence. Subordinate to these officers were the assistant superintendents, or subassistant commissioners as they later became known, who commanded the subdistricts.

The Assistant Commissioner corresponded extensively with both his superior in the

Washington Bureau headquarters and his subordinate officers in the subdistricts. Based upon reports submitted to him by the subassistant commissioners and other subordinate staff officers, he prepared reports that he sent to the Commissioner concerning Bureau activities in areas under his jurisdiction. The Assistant Commissioner also received letters from freedmen, local white citizens, state officials, and other non-Bureau personnel. These letters varied in nature from complaints to applications for jobs in the Bureau. Because the assistant adjutant general handled much of the mail for the Assistant Commissioner's office, it was often addressed to him instead of to the Assistant Commissioner.

In a circular issued by Commissioner Howard in July 1865, the Assistant Commissioners were instructed to designate one officer in each state to serve as "general Superintendents of Schools." These officials were to "take cognizance of all that is being done to educate refugees and freedmen, secure proper protection to schools and teachers, promote method and efficiency, correspond with the benevolent agencies which are supplying his field, and aid the Assistant Commissioner in making his required reports." In October 1865, a degree of centralized control was established over Bureau educational activities in the states when Rev. John W. Alvord was appointed Inspector of Finances and Schools. In January 1867, Alvord was divested of his financial responsibilities, and he was appointed General Superintendent of Education.

An act of Congress, approved July 25, 1868 (15 Stat. 193), ordered that the Commissioner of the Bureau "shall, on the first day of January next, cause the said bureau to be withdrawn from the several States within which said bureau has acted and its operation shall be discontinued." Consequently, in early 1869, with the exception of the superintendents of education and the claims agents, the Assistant Commissioners and their subordinate officers were withdrawn from the states.

For the next year and a half the Bureau continued to pursue its education work and to process claims. In the summer of 1870, the superintendents of education were withdrawn from the states, and the headquarters staff was greatly reduced. From that time until the Bureau was abolished by an act of Congress approved June 10, 1872 (17 Stat. 366), effective June 30, 1872, the Bureau's functions related almost exclusively to the disposition of claims. The Bureau's records and remaining functions were then transferred to the Freedmen's Branch in the office of the Adjutant General. The records of this branch are among the Bureau's files.

THE FREEDMEN'S BUREAU IN KENTUCKY

ORGANIZATION

From July 1865 until June 1866, Maj. Gen. C. B. Fisk served as Assistant Commissioner for both Kentucky and Tennessee. Fisk appointed Bvt. Brig. Gen. John Ely to serve as chief superintendent for the Bureau at Kentucky (from March to June 1866). Ely established his headquarters at Louisville, Kentucky, and divided

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

his operations into five subdistricts: Lexington, Louisville, Northwestern, Southern, and Central. Records relating to Kentucky created prior to Ely's tenure may be included among the files of the Assistant Commissioner for Tennessee.

In June 1866, Maj. Gen. Jeff C. Davis was appointed as the first Assistant Commissioner for Kentucky. Superintendents (or subassistant commissioners) employed under Davis were generally responsible for from 3 to 11 counties, and agents (civilian and military) from 1 to 3 counties. Agents received their orders directly from superintendents, and all superintendents were required to submit monthly reports of their activities to the Assistant Commissioner. Brig. Gen. Sidney Burbank succeeded Davis in March 1867 and was replaced by Maj. Benjamin Runkle, who served from January 1869 to May 1869 as Assistant Commissioner and superintendent of education. In August 1870, when superintendents of education were withdrawn from the states, Runkle served as claims agent for Kentucky until July 1871. H. H. Ray succeeded Runkle as claims agent, and served in this capacity until December 1871. P. J. Overley became the claims agent in January 1872 and remained in this position until the Bureau's operations in Kentucky were discontinued in April. The major subordinate field offices for the Bureau at Kentucky included those with headquarters at Bowling Green, Lebanon, Lexington, Louisville, and Paducah. For a list of known Kentucky subordinate field office personnel and their dates of service, see the Appendix.

ACTIVITIES

While the Freedmen's Bureau did not begin full operations in Kentucky until June 1866, its activities in the state generally resembled those conducted in other Southern states. The Bureau supervised labor contracts between planters and freedmen, administered justice, assisted freedmen in the establishment of schools, helped freedmen legalize marriages, and worked with black soldiers and their heirs in processing claims relating to military service.

The regulation of written labor agreements between planters and freedmen was a major concern of the Freedmen's Bureau. In a circular issued on July 24, 1865 (Circular Number 2), Assistant Commissioner Fisk told his subordinates that for both Kentucky and Tennessee freedmen must be free to choose their own employers and that wages were to be based on supply and demand rather than a fixed rate. Bureau officials were to negotiate and approve labor contracts and enforce violations by either party. Compulsory unpaid labor was strictly prohibited. In some areas of Kentucky, planters refused to enter into written agreements with freedmen, and freedmen themselves were reluctant to enter into annual agreements for fear of being reduced to slavery. However, with strong reservations, Bureau officers negotiated monthly agreements for them but encouraged freedmen to sign annual contracts that offered yearlong employment. Wages for monthly contracts ranged from \$8 to \$10 a month for adult male field hands, well below the state's average wage of \$15 a month for men. However by the summer of 1866, with the Bureau's insistence, adult laborers in the tobacco region of the state received \$25 per month and laborers in the farm belt areas earned \$12 per month. In some Kentucky counties, freedmen

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

received a third of the crops rather than wages. However, because of the shortage of laborers in the state, freedmen were able to demand higher wages, and thus over time the sharecropping system became less attractive.¹

The Bureau worked to protect the rights and legal status of freedmen, which, despite the ending of slavery by the 13th Amendment, were still endangered by the persistence of the old slave codes. On May 30, 1865, Commissioner Howard issued Circular Number 5, authorizing Assistant Commissioners to establish courts in states where the old codes existed and the right of blacks to testify against whites was prohibited. Gen. Fisk subsequently announced to the citizens of Kentucky that freedmen courts would operate in the state as long as freedmen weren't given the same rights as whites. By 1867, as a result of several Federal court rulings, Bureau courts ceased to operate in Kentucky. When state courts denied black testimony, the agency, under provisions of the Civil Rights Act of 1866, took cases involving freedmen to the U.S. District Court of Kentucky. In instances where freedmen lacked resources to pursue their cases in Federal court, the Bureau provided transportation for witnesses and other forms of assistance. Despite the Bureau's efforts to safeguard rights and secure justice for freedmen in Kentucky, admitting the testimony of blacks against whites still remained an issue in 1869 when Bureau Assistant Commissioners and their subordinates were withdrawn from the states. However, in January 1872, with a change in public opinion and pressure from the courts, the Kentucky State Legislature amended state law and allowed blacks to testify.

When Gen. John Ely began his duties as chief superintendent for Kentucky under Gen. Fisk's supervision, there were 30 freedmen schools and more than 2,000 students. The schools were organized and maintained by black churches, with black clergy as instructors. Freedmen schools faced widespread violence and white opposition, and in many cases, teachers and students were forced to abandon efforts to maintain school buildings. Ely and his subordinate assisted freedmen in reopening schools that had been forced to close.² Under Maj. Gen. Jeff C. Davis, who replaced Ely in the summer of 1866, the number of freedmen schools increased to 54, with some 67 teachers and more than 3,200 students. Excluding the schools established at Lexington and Covington under the auspices of the Cincinnati Branch of the Western Freedmen's Aid Society and the Cincinnati Branch of the American Missionary Association, the freedmen schools were taught by black teachers who were supported by subscriptions from parents and black religious institutions. The Bureau, however, rented the building for the school at Lexington. Under Brig. Gen. Sidney Burbank, who succeeded Davis in March 1867, the number of freedmen schools increased to 96, accommodating about 5,000 students aged 6-18. By

September 1868, in spite of continued violence and opposition, the Bureau had provided support for 135 day schools and 1 night school, serving more than 6,000 students.³

On February 14, 1866, the Kentucky State Legislature passed an act legalizing marriages freedmen had entered into during slavery and authorizing black ministers to solemnize such marriages. Nearly 2 weeks later, on February 26, 1866, Assistant Commissioner Fisk issued Circular Number 5, in accordance with the Kentucky law, directing those freedmen who sought to solemnize a marriage to the county clerk for a marriage license. If the county clerk refused to issue a license, Bureau officials in the subdistricts were authorized to solemnize marriages and issue marriage certificates. Local Bureau officers were required to maintain a register of freedmen marriages and forward a report of such marriages to the Assistant Commissioner at the end of each month. Subordinate Bureau officers were also told to notify persons living as man and wife who had not legalized their marriage, to report to the Bureau to take the necessary steps to do so. Persons who failed to comply were guilty of a misdemeanor and were to be punished by a fine and imprisonment.⁴ This microfilm publication reproduces marriage licenses, certificates, and registers of marriages for the Kentucky subdistricts at Augusta, Bowling Green, Columbus, Cynthiana, Owensboro, Paducah, Mt. Sterling, and Winchester. A single freedmen marriage license and a marriage certificate from Kentucky, filed in the Bureau's headquarters records, has been reproduced on roll 1 of National Archives Microfilm Publication M1875, *Marriage Records of the Office of the Commissioner, Washington Headquarters of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1861-1869*.

In addition to assisting freedmen in solemnizing slave marriages and efforts to sustain the black family, the Bureau helped discharged soldiers, sailors, marines, and their heirs in claims for back pay, bounty payments, and pensions. In accordance with a law passed by Congress on March 29, 1867 (15 Stat. 26), making the Bureau the sole agent for payment of claims relating to black veterans, Bureau disbursing officers assisted freedmen in the preparation and settlement of military claims. In November 1866, in spite of the difficulties in locating veterans who fled the state for fear of violence, Assistant Commissioner Davis reported that he had forwarded more than 260 black soldiers' claims for back pay and bounty payments to Commissioner Howard's office in Washington, DC. In the following year, Assistant Commissioner Burbank reported that his office had assisted nearly 500 veterans with military claims, and in the fall of 1868, for the year ending October 10, 1868, that more than 1,100 received bounty payments through his office.⁵

RECORDS DESCRIPTION

These records consist of volumes and unbound records. The volumes reproduced in this microfilm publication were originally arranged by type of record and thereunder by volume number. No numbers were assigned to series consisting of single volumes. Years later, all volumes were arbitrarily assigned numbers by the Adjutant General's Office (AGO) of the War Department after the records came into its custody. In this microfilm publication, AGO numbers are shown in parentheses to aid in identifying the volumes. The National Archives assigned the volume numbers that are not in parentheses. In some volumes, particularly in indexes and alphabetical headings of registers, there are blank numbered pages that have not been filmed.

The volumes consist of letters and endorsements sent and received, press copies of ~~letters sent, registers of letters received, letters and orders received, registers of~~ freedmen court cases, special orders and circulars issued, registers of claimants, registers of complaints, marriage certificates, and monthly reports forwarded to the Assistant Commissioner. The unbound documents consist of letters and orders received, unregistered letters and narrative reports received, special orders and circulars issued, and general orders and circulars received. The unbound records also contain monthly reports; labor contracts; marriage certificates, and records relating to claims.

Some of the volumes contain more than one type of record, reflecting a common recording practice of clerks and staff officers of that period. On roll 93, for example, the volume of contracts for the Columbus field office also contains a register of marriages. Some other examples of additional series within volumes can be found in records on rolls 106, 123, and 133. Researchers should read carefully the records descriptions and arrangements in the Table of Contents to make full use of these documents.

RELATED RECORDS

In the same record group, RG 105, and related to records of the Bureau's field offices for Kentucky, are those of the Bureau headquarters in Washington, DC, and previously microfilmed records of the Assistant Commissioner and the superintendent of education for Tennessee. These record series are available in the following National Archives microfilm publications:

Records in other National Archives record groups supplement those of the Assistant Commissioner. In Records of United States Army Continental Commands, 1821-1920, RG 393, are records of the military district that included Kentucky. Records relating to employment and welfare of freedmen and abandoned property before the establishment of the Bureau are among Records of Civil War Special Agencies of the Treasury Department, RG 366. The records of the Freedman's Savings and Trust Company, 1865-1874, in Records of the Office of the Comptroller of the Currency, RG 101, contain information relating to former slaves who maintained accounts with bank branches in Kentucky.

The volume listings below show the initial letters of surnames included in each volume. The entries within each alphabetical division are numbered with a separate numerical sequence for each year, but don’t always span the time period listed below. The last three registers, January 1870–April 1872, are arranged by time period. reached me. My understanding ~~of this~~
matter, was to the effect that my duties,
were to commence with December,

for the assumption of duties at that
time.

matter,
 If the before mentioned, has not been
 sent already, will you do me the favor,
 to forward them at your earliest con-
 venience?

Houses for the purpose are very hard
 to get; I think however ^{we} will get a
 house of 8 or 10 rooms, with large yard,
 for about \$5 dollars a month.

The house is not as central, as I would
 like, but it is the best we can do,
 being situate near the river, on 3rd St.,
 we could secure offices, in a more
 central situation, for the Bureau
 and for a dispensary, but we could
 not have rooms, in which to quarter
 recruits.

Remember me kindly to General

 self my confidence and esteem

General.

I am directed by the Commissioner to request that you will direct your Surgeon in Chief to make a thorough inspection of all the Hospitals and stations where Medical attendance is furnished by the Bureau, with a view to ascertain personally what are the wants or necessities of the various settlements, in reference to Medical attendance; what portion can and ought to be furnished by the public authorities; what by the people themselves, and how far the Bureau should perform a service of this kind, also to report as to the efficiency of those already employed by the Bureau as physicians and surgeons, and to recommend any reduction as to numbers or changes of station.

It is expected that whenever two (2) persons have been hitherto employed, and the ward has so diminished that there is need of one only, a reduction will

take place. This applies especially to the practice heretofore pursued, and at present existing in some of the Districts, of having Medical Officers detailed as assistants to the Surgeon in Chief of Districts, and to Surgeons in Charge of Hospitals, where with a little more personal service on the part of the superior officer supplemented with clerical aid, a Medical Officer might be dispensed with.

The same system of consolidation of services may be adopted with beneficial results, in connection with the employment of Hospital attendants. According to the number of sick reported in some of the Hospitals a larger number of persons are employed in various capacities than is believed to be required.

There also may be instances where the services of a physician resident in the place may be obtained, at a less rate, and prove as efficient as when an Acting Asst Surgeon is sent there.

In his inspections, the Surgeon in Chief will particularly observe and report upon the sanitary condition

of, and the system of routine service at the various Hospitals, Homes, Colonies, or Asylums, and give such instructions, as he may find necessary for the correction of abuse, or the improvement of the condition of such Hospitals &c, Should controlling circumstances prevent the performance of this duty by the Surgeon in Chief, a suitable Medical Officer, will be detailed in his place, and the reasons for the substitution reported to the Commissioner.

I have the honor to return to you herewith the duplicate copies of Contract together with the Cable all duly authenticated after retaining one copy of Contract for myself.

Not being able to find, a justice of the Peace, at the time I went before a Notary, and have since learned that neither a Notary, or justice of the Peace, have the power to take an acknowledgement, of any instrument of writing of legal character, by the Laws of Kentucky. This power is alone with the clerk of the Court.

The Clerk certifies that Mr. Wilcox is an authorized Officer

but not for the purpose of taking acknowledgements.

The contract is just as binding, by the Laws of Kentucky, where it is written and witnessed as if acknowledged in full by the Clerk.

I hope my action in this matter, will be approved by you: if it is not satisfactory however, I will with pleasure modify it, to suit your views.

I understand the contract, to refer only to my services among the Freedmen, and in connection with the Bureau. Let me here call your attention, to the conversation between General Davis, and myself in this matter in office, of the Bureau in this city.

The General stated that my pay would for attendance on the Freedmen be sixty dollars a month, and that I should

^{have} forty dollars additional per month, for services connected with ~~the~~ the recruiting and organizing of regiments in this city.

~~to~~ I have had no contract in regard to this latter matter and will take the liberty to ask you to bring ~~this matter~~ to the attention of General Davis.

The box of medicines have arrived but the Capt has not procured for me an office and matters are somewhat confused at present.

The House that I occupy will be empty in a few days and would be a suitable place having seven rooms with large yard and can be had for \$5 per month. The Captain has asked for instructions about renting it for ~~recruiting~~ ^{these} and for various ^{other} purposes will please to have an order made out detailing ^{private} M. Bush

Washington, Jan'y 25th, 1867.

You will direct the Medical Officer on duty in your District to comply with the following instructions in reference to the proper disposition of the net proceeds realized from the Sales of Med. and Hosp. Supplies -

When Med. or Hosp. property is condemned and ordered to be sold; after the Inspection Report is approved by the Asst. Commr. of the Dist. the Surg. in Chief will direct the Med. Officer responsible for the property to have it disposed of by Auction. Where there are but few Articles to be sold and the amount received would not warrant the expense of paying an Auctioneer, he will direct the Asst. Hosp. He will then make account of Sales and turn over the proceeds to the nearest Disbursing Officer of the Bureau and forward his Receipt for the money with a copy of account of Sales to this Office. Yours

There is doubtless abundant

of the various articles mentioned
in your Requisition, and perhaps
the Materia Indica could fur-
nish many others equally de-

there must be a limitation

point is - (at least, approximately)
reached by the Standard Supply
Table. Until that is enlarged
or modified, or made an ex-

the articles asked for might
be judiciously and advan-

The Quarterly Requisition for Medical and Hospital supplies was this day received with a majority of the additional articles asked for stricken out. I would respectfully state that there are some few of these articles that seem almost indispensably necessary to the treatment of particular cases that are always found in Hospital. viz Bromine for the treatment of old sloughing and gangrenous ulcers; O. Morrhua for cases of Phtisis, and articles for making expectorant mixtures. I doubt if any treatment would avail much without these articles - and their use perhaps would do no more than alleviate suffering. I would therefore respectfully recommend these articles be allowed on the Requisition -

The child has no connections - and is only five years

subdued with a proper truss -

I would respectfully call your attention to
the necessity of supplying or providing some place
for abandoned Orphans and indigent poor - As that
in sickness they can be properly cared for.

There are ~~about~~ twenty thousand Freedmen in
this district and there are many Orphan among
them who in sickness have no home to go to
Others are old & decrepit and unable to pay

I have the honor, to transmit herewith
 a Report, of the condition of a Freedwoman,
 named Monay, Delaney, aged 16 years. She
 has been of unsound mind, for the last
 2 months; and has in the last few days,
 manifested a desire to destroy herself.

There is no provision here, in this city or
 county, to ~~provide~~ for this class of unfor-
 tunates, either white or black; and
 I am informed, that both Insane Asylums
 in the State are full, and on this account
 she cannot be received into either of
 them. In your circular in reference,
 to Insane and imbecile persons, which

I received a few days ago I am not in-
 structed whether to make my Reports of
 such cases, whenever or whenever found,
 or to collect information of as many as I
 can find, and report them to you in
 one Report ~~bulk~~. Of this matter I desire to be advised.
 I report this isolated case, in the hope
 that you, can make some provision for her.
 She is now living with her father, a very
 worthy ~~freed~~ man, who has a large family
 of small children,
 and is ^{not} able to incur the expense, of wat-
 ching her ^{to prevent her} doing violence to herself.
 Since the above was written, I have learn-
 ed of another case, of a freed woman,
 some 15 miles from Denver in Camp Hill
 county in like condition, who has
 no provision whatever for her support;
 but who roams about the country,
 at will; she is not however disposed
 to be vicious.

These are the only cases, of which I have
 any information.

Very Respectfully

Colonel:

In reply to your
 letter from Asst. Commissioners Office State Ky
 dated Louisville Ky March 29th 1864. I have the honor to
 inform you that Doct. Fred Messig the "Contract Surgeon"
 of the U. S. Troops Stationed at this Post. Has sig-
 nified his willingness to accept the appointment as
 Physician for the destitute Freedmen of this City, which
 appointment I would respectfully recommend. The Doct
 proposes to take the contract for the compensation of
 \$40⁰⁰ per Month the medicines &c being furnished by the
 Bureau. or \$60⁰⁰ per Month and he furnish the
 Medicines.

Doct. Messig has been in the habit of prescribing
 for the very destitute Freedmen without charge since

He has been employed by the Government, He is the only Physician in this City that can take the liquid Cash.

In conclusion I will state that the services of Doctor Messig are not only important, but are very necessary for the conducting of the affairs of this Bureau in this City. Since the order to transport those who were affected to Hospital at Louisville - was received many have suffered for proper Medical attention.

April 9th 1867.

Sir:

Is it possible to obtain a clerkship or other suitable employment in your Office? I am seriously troubled for the means of support. I was two years and a half in the late war as asst Surg. 12th Ky. Cavalry, and Asstg. asst. Surg. U.S.A. in Genl. Hosp.

Unfortunately for me, my property before the war consisted almost exclusively of a number of slaves. I had relied upon these as a means of support and related other means. I have now but a shelter, without other means.

There are three ex-Federal Surgeons here of the late Vol. Army, and such is the prejudice against them that one of them has abandoned his profession and gone into a small grocery business; another has lost pretty much his entire practice, which was good before the war; and I am forced to make the above request to make a support. A returned rebel Surgeon, on the contrary, is getting a fine practice, and two other sympathizers are getting pretty much the balance of the practice. This is very generally

the case in Ky where it would be most desirable to locate.

I entered the army against the feelings of most of my friends and all my relations, and have consequently lost their sympathy.

I am forty-eight years of age - the elasticity of youth is gone - I cannot so easily recover from misfortune as when younger, and as I have no means to engage in business requiring capital, and not much in love with my profession, at best, I ask this favor as being most congenial to my taste.

I am probably over age to enter the army as asst. Surg., or I would ask that position if any vacancy existed.

If I had not a family to support, I would let the surging tide of Fortune drift me whither it might.

If you will intimate to me that a place can be had, in addition to my record in the war and your own Office, I can procure the endorsement of our late M. G. from this, the Ashland District, as to my general character and qualifications.

I have not got the means or desire to visit Washington to annoy you by personally pressing this matter, and will rest the issue upon the above statement.

Should there be an immediate, or not, ^{too} remote

Prospective chance for a place, will you do me the kindness to reply?

Very Respectfully,
Surg. Genl. Barnes,

Br. Lt. Col. W. R. De Witt Jr.
Surgeon in chief District of Ky.
Louisville Ky.

Colonel:

Your favor of May 3rd came to hand to day, and I hasten to send the third copy of the requisition for medical and hospital supplies. I would have send the three copies at once, but it says on the back of the requisition under N. B. They will be transmitted in triplicate, and by different mails. I did send the first copy, May 1st, mailed the second May 2nd and would have mailed the last one the next day, but as I did know, that, at that day and the next no mail boat was leaving this port, I did postpone it, till to-day. I hope, you will excuse me this time, as it was no negligence on my part, which made me commit this mistake. I am very much obliged to you about the instruction you gave me in regard to the report of monthly perscriptions, and shall make it next month, according to your orders.

Sir

I would call your attention to the following facts. I find in the course of my practice a large number of colored people needing medical attention, medicine &c and are unable to obtain the same because of their poverty.

The Bureau R. F. & A. Lands had employed here for some time a surgeon, but he has given up his contract and left the state. Since he left, the colored people are unable to obtain medical attendance, a great many of them at least, because our resident physicians cannot afford to attend on them for nothing.

In view of the above facts I will therefore respectfully make application through you for a contract as acting assistant surgeon, Bureau R. F. & A. Lands for your district, promising to devote my whole time if necessary to the attendance of the colored people in their sickness.

I can give all necessary testimonials as to competency, vizably so, having served as A. A. Surgeon in 12th Regiment Ky vols thro the war.

I am sir very respectfully yours obt. svt. N. Fletcher, M.D.

Capt. R. E. Johnston,
 43 W. Inf.

Sir,

Your letter of
 yesterday making inquiry if I was
 the author of a letter in the Louisville
 Courier, signed "Felix" &c., is received.

I wrote such a letter. It was
 written hurriedly, from a room
 on the street, without due re-
 flection on my part. The portion
 of the letter reflecting on the troops
 was in reference to their last
 visit to Mrs. Crawley. From the
 account which I had received
 I supposed the soldiers had
 gone there without an officer &
without authority, simply to take
 vengeance for what had been
 done there.

I condemned the mobbing of the
negroes, and was in favor of
Lincoln's arrest if he were con-
cerned in it, which I understood
he said he could prove that
he was not.

I was a Union man during
the war & am yet unconditionally,
I condemn nothing nor appro-
ve anything that I don't think the
circumstances justify me in doing
at the time. I have no prejudices
against a faithful soldier in the
legitimate discharge of his duty, & if
I think he is irregular and out of
place, I won't withhold my opin-
ion unless it is likely to endanger
some ulterior good end. I may
have been mistaken in my supposed
facts in this case.

It was a mere accidental
circumstance that the letter ap-
peared in the "Courier", rather
than in any other paper. My fan-

ily desired to take that paper, as a
near relation of my wife is one
of its editors, and I am in the
habit of reading it as well as
other papers.

I suppose this information as
to the authorship of "Felix" is ^{correct} ~~made~~
from the fact that I have applied
for the position of Physician to the
freedmen in this place. The writing
of that letter would never interfere
in the discharge of my duties in that
position. I don't claim to be what
is understood as a Radical in a
party sense, but there is no man
who loves his Country and its in-
stitutions more than I, or who
will give more willing obedience
to its laws, even if I shall vote
to repeal these laws, when it becomes
my privilege to do so.

I hereby, unconditionally, withdraw
my application made to Mr. Harris
for the above position.

I received a letter and vouchers of the medical Storekeeper U. S. A. Capt.

is increasing and some medicines are not to be had in this town, though

Reports about Maria Shields daughter
who died in the hospital.

Louisiana 7th June 10th 1867

Dear Sir!

Marion Shields came at the dispensary this morning in regard to the case of her daughter. I have collected the following items which I think you might desire to become acquainted with before you proceed on consulting the reports of the Disp. I find that on the 24th April 1867 Dr McVinty has made an entry as follows: Nora Shields - Single - female child aged 9 - Smallpox - He has made ~~the~~ ^a remark showing that she was sent to the Smallpox Hospital on the 1st of May

2. According to the mother's account the child remained in hospital 3 weeks. (which is generally sufficient by law)

3. The mother says the child

(2)
 had been home ~~2~~ days before she
 sent for Dr McRinley. Owing to
 several reasons, the doctor did not
 go.

On the 27th of May last I find
 the following entry made in the Re-
 gister of Patients at the Disp.
 Georgea Shields - a female child
 aged 10 - Pneumonia - died June 6th

The hiatus in her history from the day
 when she left the Small pox Hosp.
 to the day when I first saw her
 will enable a third party to say
 the disease was contracted since
 she left the Small pox Hosp.

I received that document in due time, but did not exactly know, what was understood, by: correction, as all the corrections were already made with red ink, and only the number of the command was left blank. I have filled it with the number of those Refugees and Freedmen, who may come under my charge. So far as I could ascertain at the Bureau of Freedmen at this place, that number may be estimated from 200 to 250; which I put in the appropriate place.

In reply to your
 communications of the 17th inst. I have the honor to
 make the following report:

Doctor Hargis character, as
 far as I have been able to judge during the time, I
 have been here, some ten months, is beyond reproach,
 and such is the character he sustains in this community.
 upon more particular ^{inquiry} that he drinks intoxicating liquors
 to some extent is true, but, that it has ever affected his
 character as a Gentleman, and Physician or injured
 his practice or impaired in kind, the confidence of his
 patrons I have yet to learn.

His loyalty to the Government,
 from the beginning of the late Rebellion to the present
 time is beyond question. There can be no founda-
 tion in the fact, to the assertion that he was
 ever in the Rebel Army or even that he even
 gave the cause the least sympathy. on the
 contrary his Unionism has always, as I am

informed, has always been of a Radical nature.

I consider it my duty to report also, in this connection, that previously to his employment by this Bureau, he was in the habit of dispensing to the destitute Freedmen of this place, both advice and medicines, for which he could not even expect the slightest remuneration, when no other Physician in the City would do anything to assist them without pay.

As to Dr. Best he is without the shadow of a doubt, entitled to the same character as a gentleman and Physician, and as for loyalty, as that given Dr. Haesig. As to his habit of using intoxicating liquors, the same remarks would also apply. I am with the information in my possession unable to discriminate between them.

At the time I was requested to make a recommendation for a medical officer of the Bureau at Paducah Ky. it was suggested to me to invite the A. A. Surgeon from the Army here to accept the position, that person was Dr. Haesig. Dr. Best at that time was absent from the City and had been some time, had I wished, I could not have communicated with him until yesterday the date of his return to this city.

The two gentlemen above referred to, are the only Physicians of

this place, within my knowledge who could, or can take the necessary oath and the suggestions above referred to, and Dr. Best's absence has now placed Dr. Haesig in the position and I cannot in view of the above statement see any reason to recommend any change in this respect.

I am, very respectfully,
Ernest Chedent Insult

Louisville Kentucky

General:

I am directed by the Commissioner to inform you that after a careful revision of the evidence taken in support of the allegations by Dr Griffith and others against Surgeon Bell, the charges are not at all sustained, but upon the contrary, the whole evidence proves Surgeon Bell to be a faithful and competent officer.

In the case of Pt. Maj Roberts no acts of official misconduct is proven. But by his own admission his conduct and familiarity in the family of Dorce was not becoming in an officer of his age, rank and position towards a subordinate or employee.

It is to be hoped that such indiscretions, which are certainly reprehensible, may not be repeated while Major Roberts is continued in the service of the Bureau. No further proceedings will be had in the matters referred to.

Very respectfully

(over)

your Obedt Servt.

I am ashamed that my last monthly report has caused you so much trouble and can offer you no better ^{excuse} ~~excuse~~ than the simple fact that Vision is much impaired within the last few months and I have endeavored to get along without glasses &

I have trusted much to my acting eyes and owing to this defect of vision I cannot correct the errors as readily as I otherwise should

Besides there are some days that my sight is more imperfect than others

These mistakes are very unpleasant and to none more so than myself

I hope you will not regard them
as a careless neglect of duty
I shall endeavour to ^{be} correct in
the future

In my Report as sent to you
there was six cases omitted under
inflammation of the Pansils

2 Adult Females 1 Male child 3 Female
children This is in accordance
with our Register,

I have connected the copy ^{you sent} in this
particular which will give a total
of six greater than your copy
contained.

I will send by return mail

Very Respectfully

My Weekly Report for Sept 7
being incorrect was returned to me
for supervision. I connected it as I
thought or rather my steward did
it for me and it was again forwarded
to you This time it proved
to be incorrect much to my mortification.
My excuse for which is the same as I
offered you in reference to the monthly
my sight having become dim within
the last 8 or 10 months and my trusting
in younger eyes.

My Report for the 14 being made up
~~and forwarded~~
x in part from the report of 7th is
also incorrect I therefore transmit
you a connected report not

waiting to have it returned for
connection

I shall in future devote my
self to making out my Reports
both weekly and monthly so as
to insure more uniform connect
ness.
